General Motors

Manufacturer Safety recall issued

- NHTSA #19V645
- Transport Canada# tbd
- Recall #N192268490 INCREASED BRAKE PEDAL EFFORT
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

🔍 [Learn more about this recall](#)

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2014-2018 model year Cadillac Escalade, Chevrolet Silverado, Chevrolet Suburban, Chevrolet Tahoe, GMC Sierra, and GMC Yukon vehicles. In some circumstances, these vehicle may have a condition in which the engine-mounted mechanical vacuum pump output may decrease over time, decreasing the amount of vacuum/power brake assist.

Remedy: Dealers will reprogram the electronic brake control module with a new calibration that will improve how the system utilizes the hydraulic brake boost assist function when vacuum assist is depleted.

10/24/2019

General Motors

Manufacturer Safety recall issued

- NHTSA #19V761
- Transport Canada# 19533
- Recall #N192261050 UNEXPECTED PULL TO ONE SIDE
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

🔍 [Learn more about this recall](#)

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2014 - 2018 model year Chevrolet Silverado and GMC Sierra 1500 vehicles equipped with four-wheel drive, a 5.3-liter engine, and a 3.08-ratio rear axle, and certain 2015 - 2020 model year Chevrolet Suburban, Chevrolet Tahoe, and GMC Yukon equipped with four-wheel drive, a 5.3-liter engine, and a 3.08-ratio rear axle. If a wheel-speed sensor fails in these vehicles, a software error in the vehicle's electronic-brake control module (EBCM) can cause the vehicle's driveline-protection system to activate when (i) the vehicle's electronic transfer case is set to four-wheel drive or automatic mode, and (ii) the vehicle is driven between the speeds of 41 and 60 MPH. If the driveline-protection system activates, the driver will experience unintended braking on the wheel on the opposite side of the failed sensor.

If a wheel-speed sensor fails, the vehicle's Electronic Stability Control (ESC) and Anti-Lock Braking System (ABS) malfunction indicator warning lamps will illuminate and the vehicle's driver information center will display a "Service StabiliTrak" message. If these vehicles are driven in this condition while in four-wheel drive or automatic mode at 41-60 MPH,

unintended braking on one wheel can occur, causing the vehicle to pull to one side, increasing the risk of a crash. Owners can eliminate this risk by operating the vehicle in two-wheel-drive mode until the recall repair is performed.

Remedy: Dealers will reprogram the electronic brake control module (EBCM).

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Rental

Vehicle was registered by a rental agency.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
